DAME ABERA

Software Engineer | Full Stack Developer

| dameabera11@gmail.com | https://github.com/Dame-Abera | Addis Ababa

SUMMARY

Dynamic Full-Stack Software Engineer with 2+ years of hands-on experience crafting intuitive, user-centric front ends and architecting clean, highly scalable back ends. Proven ability to turn ambitious concepts into polished, real-world applications—whether driving solo or collaborating cross-functionally—to deliver maintainable, high-quality software that propels business growth.

PROJECTS ,Works and EXPERIENCE

Personal Projects

Bookmark REST API

■ A clean and secure backend system for managing saved links and bookmarks. Developed using NestJS, PostgreSQL, Docker, and JWT.

LMS for Ethiopian Languages

■ A learning management platform supporting Amharic, Oromo, and Tigrinya. Built with a NestJS REST API (TypeScript), PostgreSQL, Docker, and JWT authentication.

Team & Assigned Projects

GreenLeaf (Android App)

■ A collaborative mobile app for recording plant species and observations in the field. Developed the frontend with Flutter and Jetpack Compose for kotlin version , integrating with a Django REST API backend.

Educational Projects

Office Expense Tracker

■ Role-based web app for managing team expenses with admin reporting. Built using TypeScript, NestJS, Docker, and Prisma.

Map Based Travel Tracker

■ Developed a map-based planner using Express.js to visualize family trips worldwide, featuring a custom SVG-rendered world map for interactive country highlighting.

EDUCATION

Full Stack Web Development bootcamp

App Brewery
Udemy 2024 - 2025
